Interior Rendering

What we can provide

CGI's are a powerful tool for conveying design concepts and creating **eye-catching** visuals that can be used for pre-selling real estate.

They can **bring any idea to life** and allow the impossible: showcasing the space layout, zoning, materials, textures, colours, lighting, furniture, decor choices, etc.

Furthermore, professional CGI imagery can look like a piece of art. It's beautiful, photo realistic and filled with atmosphere — the **perfect marketing asset**.

Office Space Rendering

What we can provide

Clients love our office visualisations as they allow designers to experiment with finishes and furniture selections to **help refine their visions**.

Our office visualisation service also allows clients to unlock their creativity in maximising the use of floor plan space and **achieve the optimal design**.

Areas we cover :

- Reception & lobby areas
- Open plan desking
- Breakout/lounge areas
- Teapoints
- Meeting rooms
- Auditoriums

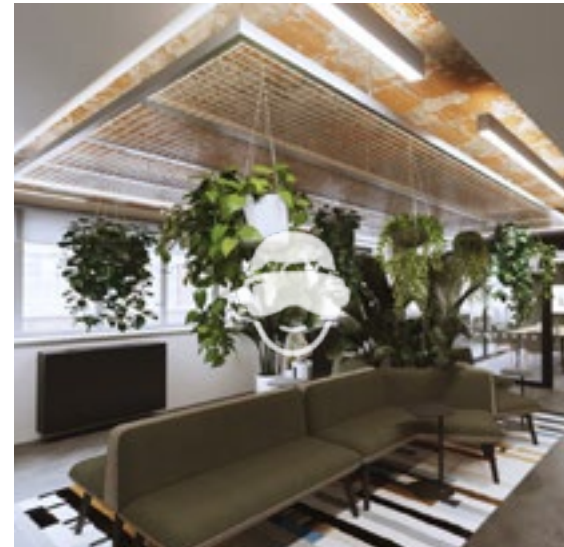

3D Furniture Rendering

What we can provide

A beautiful instrument for **showcasing forms, materials and fabric concepts**. We provide eye-catching visuals for engaging clients with your furniture.

Our 3D renderings provide **flexibility and consistency** that traditional photography just cannot offer. This is because our 3D scenes can be changed and repurposed to exhibit furniture in different environments, which can truly prove its versatility.

	Service	Description	Cost of service
01.	 Interior Rendering	We can provide same-day start, from 1-week delivery, and always deliver breathtaking results. Our large team of experienced 3D artists are always ready to turn your interior design ideas into visual masterpieces.	from £1500 +VAT
02.	 Office Space Rendering	Producing 3D renders with our company will take your project to the next level as we guarantee amazing results. Our team specialises in 3D visualisation of offices. 100CGI professionals are highly experienced in commercial spaces and office spaces.	from £800 +VAT
03.	 3D Furniture Rendering	CGI provides much greater flexibility and consistency when showcasing products or furniture than traditional photography techniques. For example, alternative textured variations can be produced, and the same product can be shown in different environments or lighting conditions.	from £500 +VAT
04.	 Virtual Reality Tours	A 360 Virtual Reality or VR Tour is the most realistic and captivating way to experience any type of space online. It enables viewers to feel like they're really there, without the client needing to leave the comfort of their home or workplace.	from £5000 +VAT
05.	 3D/CG Animation	3D Animation are often referred to as flythroughs or walkthroughs as they allow a view to fly/walk through a property before it is constructed. You can showcase anything from walking through the front door, to taking a swim in a pool. We offer exceptionally high quality 3D animations.	from £150/sec +VAT
